SUMMARY

I am a recent graduate looking to immerse myself in a dynamic development role that will allow me to apply acquired technical skills. I have experience in collaborative group projects working for clients in a high-pressure time sensitive environment. I bring a strong work ethic and desire to improve and look forward to contributing in a professional setting.

EDUCATION

Griffith University

Bachelor of Game Design and Production | Major: Game Programming *2026*

University of The Sunshine Coast

Bachelor of Design (Game Design) | Minor: Game Art, Game Programming *2025*

- Relevant Coursework: Game Prototyping and Production, Game Studio Capstone Project, User Research and Feedback, Character and Environment Development, UX/UI Design and Level Analysis.

Caloundra City Private School | Grade 12 Senior Certificate 2020

PROJECTS

2D Grid-Based Dungeon Crawler | *IntelliJ, Git, Java, JavaFX* *June - July 2025*

- Engineered a Java-based dungeon crawler game featuring procedural level generation, multiple enemy types and line-of-sight weapon attacks.
- Implemented collision detection, health/scoring systems and high-score tracking systems using object-orientated design patterns for entity management.

VR Vertical Slice | *Unreal Engine, OpenXR* *September - November 2024*

- Designed and developed a dynamic VR environment with stylized assets and VFX.

Capstone Project | *Unity, Git, Unity VFX Graph* *February - November 2023*

- Developed character, camera and interaction scripts.
- Assisted project lead with tutorial level design and designed puzzle elements.
- Utilized Blender/3Ds Max to create assets.
- Created VFX for the project using Unity Shader Graph.

EXPERIENCE

Accounts and Reception Admin - St Mary's Aged Care 2017 to Current

Key Responsibilities: Front-desk, Communication, Bookkeeping, Scheduling, Time Management, Problem Solving.

ACHIEVEMENTS, CERTIFICATIONS & TECHNICAL SKILLS

Languages: Python, C#, C++, Java
Development Tools: Visual Studio, IntelliJ, Git, VS Code, Slack, Microsoft Teams, Trello
Engines & API's: Unity, Unreal Engine, Godot, DirectX, Unity VFX Graph
Core Concepts & Systems: Game Loop, Level Design, OOP, UX Design

Vice-Captain of Senior School
2020 Valedictorian
VR Vertical Slice Showcased in USC Art Gallery
Microsoft AI Skills for Students Program
